

STATEMENT OF SUPPORT

The Florida Oral Health Alignment Network (Network) is a group of diverse stakeholders committed to raising oral health as a social justice, systemic issue. We fully embrace the social determinants of health paradigm and actively drive collaboration at the intersection of organizational priorities to improve the oral health and total well-being of all Floridians.

The Network practices cooperation, defined as knowing what each stakeholder does best, and linking more intentionally to one another, ensuring that the work is coordinated and we learn together. Our collective priorities are advocacy to improve access to dental care, community education, ongoing communication, and ensuring that oral health services are available to Florida’s vulnerable children.

If your organization/association shares our mission and can envision Florida as a state where all enjoy optimal oral health and total well-being, then we would like to invite you to join our Network.

Here are ways you can get involved. Check those that interest you!

- Become a Network Member by signing this *Statement of Support*
- Become a member of one or more of our leading partner organizations (see below)
- Share information through social media and newsletters
- Sign on to relevant advocacy campaigns
- Activate membership to engage in relevant advocacy campaigns
- Engage membership in oral health education campaigns
- Join an action team, work group, or subcommittee of one or more of our partner organizations
- Collect stories on oral health to illustrate the need for improved coverage and access
- Provide testimony at legislative hearings when requested

_____ (name of organization) supports this statement in principle and chooses to be part of the network shaping oral health policy and action to achieve optimal oral health for all Floridians.
